

## Release Agreement

The Multimedia Information Processing Lab (MIPL), Institute of Computer Science and Technology, Peking University has constructed a new dataset for fine-grained cross-media retrieval, named as PKU FG-XMedia dataset. Any researcher who requests the data must sign this agreement and thereby agree to obey the restrictions listed in this document.

The researcher(s) agrees to the following restrictions:

1. The data will not be further distributed, published, copied, or further disseminated in any way or form whatsoever, whether for profit or not. This includes further distributing, copying or disseminating to a different facility or organizational unit in the requesting university, organization, or company.
2. All the data (text, audio, image and video) will be only used for the purpose of scientific researches. The dataset and benchmark in whole or in part, will not be used for any commercial purpose in any form.
3. All technical papers, documents and reports which use the dataset and benchmark **must** cite the corresponding papers as follows:
  - Xiangteng He, Yuxin Peng and Liu Xie, A New Benchmark and Approach for Fine-grained Cross-media Retrieval, 27th ACM Multimedia Conference (ACM MM), Nice, France, Oct. 21 - 25, 2019.
  - Yuxin Peng, Xin Huang, and Yunzhen Zhao, An Overview of Cross-media Retrieval: Concepts, Methodologies, Benchmarks and Challenges, IEEE Transactions on Circuits and Systems for Video Technology (TCSVT), Vol. 28, No. 9, pp. 2372-2385, Sep. 2018.
4. The MIPL reserves all the right for the final explanation.
